

SANDER GEOPHYSICS

Position Title:	Mechanical Manufacturing Student
Department:	Engineering
Reports to:	Engineering Manager
Type of Position:	Co-op
Location:	Ottawa office

SGL is currently seeking a Co-op student to join our growing team in the engineering department.

Responsibilities

- Assist in devising and overseeing any tests required to demonstrate proof of concept or functionality and the generation of applicable schematics and reports;
- Assist the mechanical manufacturing team in the review of engineering drawings and designs;
- Assist with the engineering department mechanical assemblies;
- Assist and facilitate training for assigned technicians in the field of composite structures fabrication; and
- Perform other duties as required.

Qualifications and Experience

- Current enrollment in a postsecondary institution in a Mechanical Engineering program, Aircraft Maintenance program, or similar related discipline;
- Eligible to hold an ACA within SGL's Aircraft Maintenance Department, an asset;
- Experience in composite manufacturing and assemblies;
- Experience and/or exposure to welding structures manufacturing and assemblies;
- Experience with geophysical survey equipment an asset;
- Demonstrated ability to work independently;
- Proficient organizational skills;
- Competent report writing ability; and
- Familiarity with CAD principles and techniques for technical drawings.

If you are interested or know a qualified person who would be interested, please forward their resume to careers@sgl.com. Please include the *position title in the subject line of your email*.
